

# Liquid for Electronic Cigarette

---

Welcome to Dominant Vapor, your source for the best Vape! Whether it's juice or hardware, we are dedicated to giving you the very best gear. We do business with a focus on affordability, safety, fast shipping, and superior customer service.

Dominant Vapor was founded by a 20+ year cigarette smoker who replaced the cancer sticks with vaping after losing his brother to cancer.

He was getting juice from too many vendors that was sometimes good and sometimes bad. He decided to make his own juice and perfected recipes. Through

this process he came to the realization that what the e Liquid industry is missing is customization.

Dominant Vapor was founded to give our customers revolutionary customization options that ensure that every customer gets the perfect bottle every time. Most e Liquid vendors give an option for adding more flavor, but you need to guess and hope you guess right. If you don't, well you either vape that nasty stuff or throw you money away and trash it. With the Perfect e Liquid Customization System all you need to do is tell us how you are vaping it and how you want it to taste and we do all the work for you. We extensively test every flavor that we offer on a regular basis to make sure that what you want you juice to taste is how it will taste. This level of customization is only available here. Check out the Perfect eLiquid Customization System [here](#).

We are so certain that you will be 100% satisfied with our e Liquid products, we offer a Satisfaction Guarantee. If you are not happy with your juice we will make it right and replace it free of charge. See Satisfaction Guarantee for more details.

While our product costs less than our competitors, we don't cut corners on quality. All of our juice is made with the highest quality ingredients from right here in the USA. There are only 4 basic ingredients:

1. USP\* Kosher Food Grade FDA GRAS\*\* Propylene Glycol PG (carries flavor better than VG and provides throat hit) from Oklahoma.
2. USP\* Kosher Food Grade FDA GRAS\*\* Vegetable Glycerin VG (creates smoke like vapor) from Oklahoma.
3. USP\* Kosher Nicotine Solution from Oklahoma.

4. Flavoring ingredients contained in our products are approved for use in regulation of the FDA or are listed as GRAS\*\* on a reliable published association list. Every flavor we offer made in California.

\* The U.S. Pharmacopeial Convention (USP) is a scientific nonprofit organization that sets standards for the identity, strength, quality, and purity of medicines, food ingredients, and dietary supplements manufactured, distributed and consumed worldwide. USP drug standards are enforceable in the United States by the Food and Drug Administration, and these standards are used in more than 140 countries.

\*\* GRAS is an acronym for the phrase Generally Recognized As Safe. Under sections 201(s) and 409 of the Federal Food, Drug, and Cosmetic Act.

## **Home of the best quality discount e Liquid / e Juice**

At Dominant Vapor we are all about bringing you the highest quality electronic cigarette products at discount prices. We test and re-test every single product that we sell to ensure your complete satisfaction.

- 30 day warranty
- Authorize.net Verified Merchant with secure checkout
- Fast response customer service 10AM - 10PM ET Mon-Sat

## Perfect e Liquid Customization System

**Customization Guide** - Customize your eLiquid like never before with 5 Levels of customization. Simply select options before adding the item to your cart.

### Typical Options:

1) **PG/VG Ratio** - Select your desired PG/VG Ratio. More PG = more throat hit. More VG = more clouds.

- 65 PG/35 VG - Very thin almost water-like. Best for older tanks that don't wick very well
- 50 PG/50 VG - Typical thickness. Best for most tanks and RTA's
- 35 PG/65 VG - Thicker liquid. Best for newer tanks and RTA's that have adjustable or oversize wicking holes
- 20 PG/80 VG - Very thick. Best for RDA's and maximum clouds

2) **Nicotine** - Select the desire nicotine level. More nicotine will give more throat hit. For high power devices RDA/RTA/Sub-ohm tanks we recommend 3 to 9 mg/ml. 12-18 mg/ml may have a harsh throat hit in these devices.

- 0 mg/ml - Nicotine Free
- 3 mg/ml - Ultra Low Nicotine
- 6 mg/ml - Low Nicotine
- 9 mg/ml - Light Nicotine
- 12 mg/ml - Standard Nicotine
- 18 mg/ml - High Nicotine

### Unprecedented Customization Options:

3) **Your Device** - Select your preferred device. If you have multiple devices or you are not sure, select the device you use most. Flavor will be customized for that device. Flavor is made stronger as you go down the list. If you use Cartomizer juice in an RDA it will be much stronger.

- Dropper (RDA)
- Rebuildable Tank (RTA/RBA)
- Sub-Ohm Tank - Pre-built coil heads less than 1.0 ohms
- 1.0+ Ohm Tank - Pre-built coils heads more than 1.0 ohms
- Cartomizer - Cigalike small cigarette size mini eCig

4) **Taste** - How do you like your flavor. Do not select higher flavor level just because you are ordering a higher VG product. We already take this into account for you when we create your order. Just tell us what you expect out of the finished product.

- Light - I want a mild flavor vape
- Flavorful - I want a full flavored vape
- Strong - I want a strong flavor slightly overpowering vape
- Intense - I want to taste it in the back of my skull

5) **Vape Power** - Typical wattage you use to vape. This is used to fine tuning of the flavor to go from really good to wow that's perfect!

## eLiquids

Tons of customizable flavors. Try our Natural line with no artificial flavors. Select a PG/VG ratio and nicotine, then select your preferred atomizer type, flavor level and finally vape power for fine tuning.
