Mini SAS to Mini SAS Cable

Celebrating over 75 years of interconnect manufacturing excellence, Amphenol Corporation is one of the largest manufacturers of interconnect products in the world. Founded in 1932 in Chicago, Amphenol designs, manufactures, markets, and distributes electrical, electronic and fiber optic connectors, interconnect systems, coaxial, and specialty cables to various customers, ranging from large multi-billion dollar OEMs to consumers. Amphenol is publicly-traded (NYSE: APH) since 1999 and is a component of the S&P 500 Index. With decades of manufacturing expertise and over 65 production facilities around the globe, Amphenol offers cost-effective solutions for each application need. We employ more than 30,000 people worldwide. Cables on Demand, a division of Amphenol Corporation, has offices located in New York and California.

At Amphenol Cables on Demand™ (ACD), we guarantee our interconnect products to be of the highest quality as demanded by our largest OEM customers. Only premium materials and quality engineering are used in the design and manufacturing of our Amphenol Cables on Demand™ product offerings. ACD takes great pride in our compliance with global industry standards and environmental compliances, such as UL, CSA, and RoHS compliance. ACD offers thousands of cables in stock and same day shipping for most orders made before 3pm eastern. ACD's fulfillment warehouse is built with state of the art systems and equipment to guarantee expedited shipment of your order.

As a commitment to offering high-quality, reliable, and on-demand products, ACD continually tests and develops new products to meet the growing needs of today's customers and tomorrow's future applications. To maintain position for the highest standard of excellence in an ever-changing market, Cables on Demand continues to embrace the latest technology and relentlessly improve the product quality, breadth, and innovation. Exceeding customer expectations will always be our benchmark for providing top customer service.

HD Mini-SAS Cables (SFF-8644)

HD Mini-SAS Cables (SFF-8644 iPass+™ HD) from Amphenol Cables on Demand [25% OFF SALE] -- NEW from Amphenol: Mini-SAS HD (High Density) External Passive Copper Cable Assemblies support the next generation of Serial Attached SCSI devices -- operating at a blazing fast 12.0 Gbps per lane as per the latest SAS 3.0 specifications. Coaxial Cables

Coaxial Cables by Amphenol -- Buy Direct from the Global Leader in RF Interconnects. No matter what cable type your application requires, Amphenol Cables on Demand has the right coax product to suit. Genuine Amphenol coaxial cables are offered in both 50 Ohm and 75 Ohm configurations for broad compatibility with commercial RF and consumer electronics applications. Enjoy your choice of RF connector (SMA, BNC, or N) and coax grade (low loss, small diameter, or high-temp) in lengths up to 200-feet.

50 Ohm Coaxial Cables

50 Ohm Coaxial Cables by Amphenol -- Buy Direct from the World Leader in RF Interconnects. Our pre-terminated 50 Ohm coax cable assemblies are currently available in RG58, RG142, RG174, RG188, RG213 and RG316 configurations with a variety of connector choices including BNC, SMA, and N. We recommend 50 Ohm coaxial cables for RF applications that demand a compromise between minimum signal attenuation and maximum power handling. At Amphenol Cables on Demand, we offer a wide selection of 50 Ohm coaxial cables to suit our customers' distinct needs.

75 Ohm Coaxial Cables

75 Ohm Coaxial Cables 75 Ohm Coaxial Cables by Amphenol -- Buy Direct from the World Leader in RF Interconnects. At Amphenol Cables on Demand, we recommend 75 Ohm coaxial cables for video and low-power applications where minimal signal attenuation is required. Our pre-terminated 75 Ohm coax assemblies are available in RG59/U (solid) and RG59B/U (solid) configurations with Genuine Amphenol BNC connectors.

DisplayPort Cables & Adapters

DisplayPort Cables & Adapters by Amphenol -- Top PC OEM's bundle Amphenol DisplayPort cables with their products thanks to their proven quality, reliability, and DisplayPort 1.1 certfication. The revolutionary DisplayPort interface is poised to take over as the digital video connection of choice for

computers and LCD monitors. DisplayPort Cables available in 1m, 2m, & 3m lengths, as well as DisplayPort to HDMI & DisplayPort to DVI Adapter Cables.

✦ DisplayPort Cables

DisplayPort Cables by Amphenol - Choose from our comprehensive selection of DisplayPort cables in 1m, 2m, and 3m lengths. Amphenol DisplayPort cables feature ultra-high-bandwidth construction (10.8 Gbps) and were amongst the first cable brands to be fully qualified by DisplayPort.Org and offer full DisplayPort 1.1 certification. Designed, built, and tested by Amphenol AssembleTech.

✦ DisplayPort to DVI Adapter

DisplayPort to DVI Adapter Cable by Amphenol -- Need to convert your DisplayPort connection into a fully functional DVI-D port? Look no further than our exclusive DisplayPort to DVI adapter cable from Amphenol AssembleTech. Simply plug our adapter cable into any DisplayPort equipped video card or monitor. Your existing DVI cable connects directly to the adapter with ease.

Home Theater Cable Center

TiVo & Echostar have bundled 2-million+ Amphenol HDMI cables with their A/V equipment. Amphenol HDMI cables exceed HDMI 1.3 & HDMI 1.4 cable specs, ensuring compatibility with both current and future-gen HDTV's.
